WE KNOW OF NO WAY
TO JUDGE THE FUTURE . . .

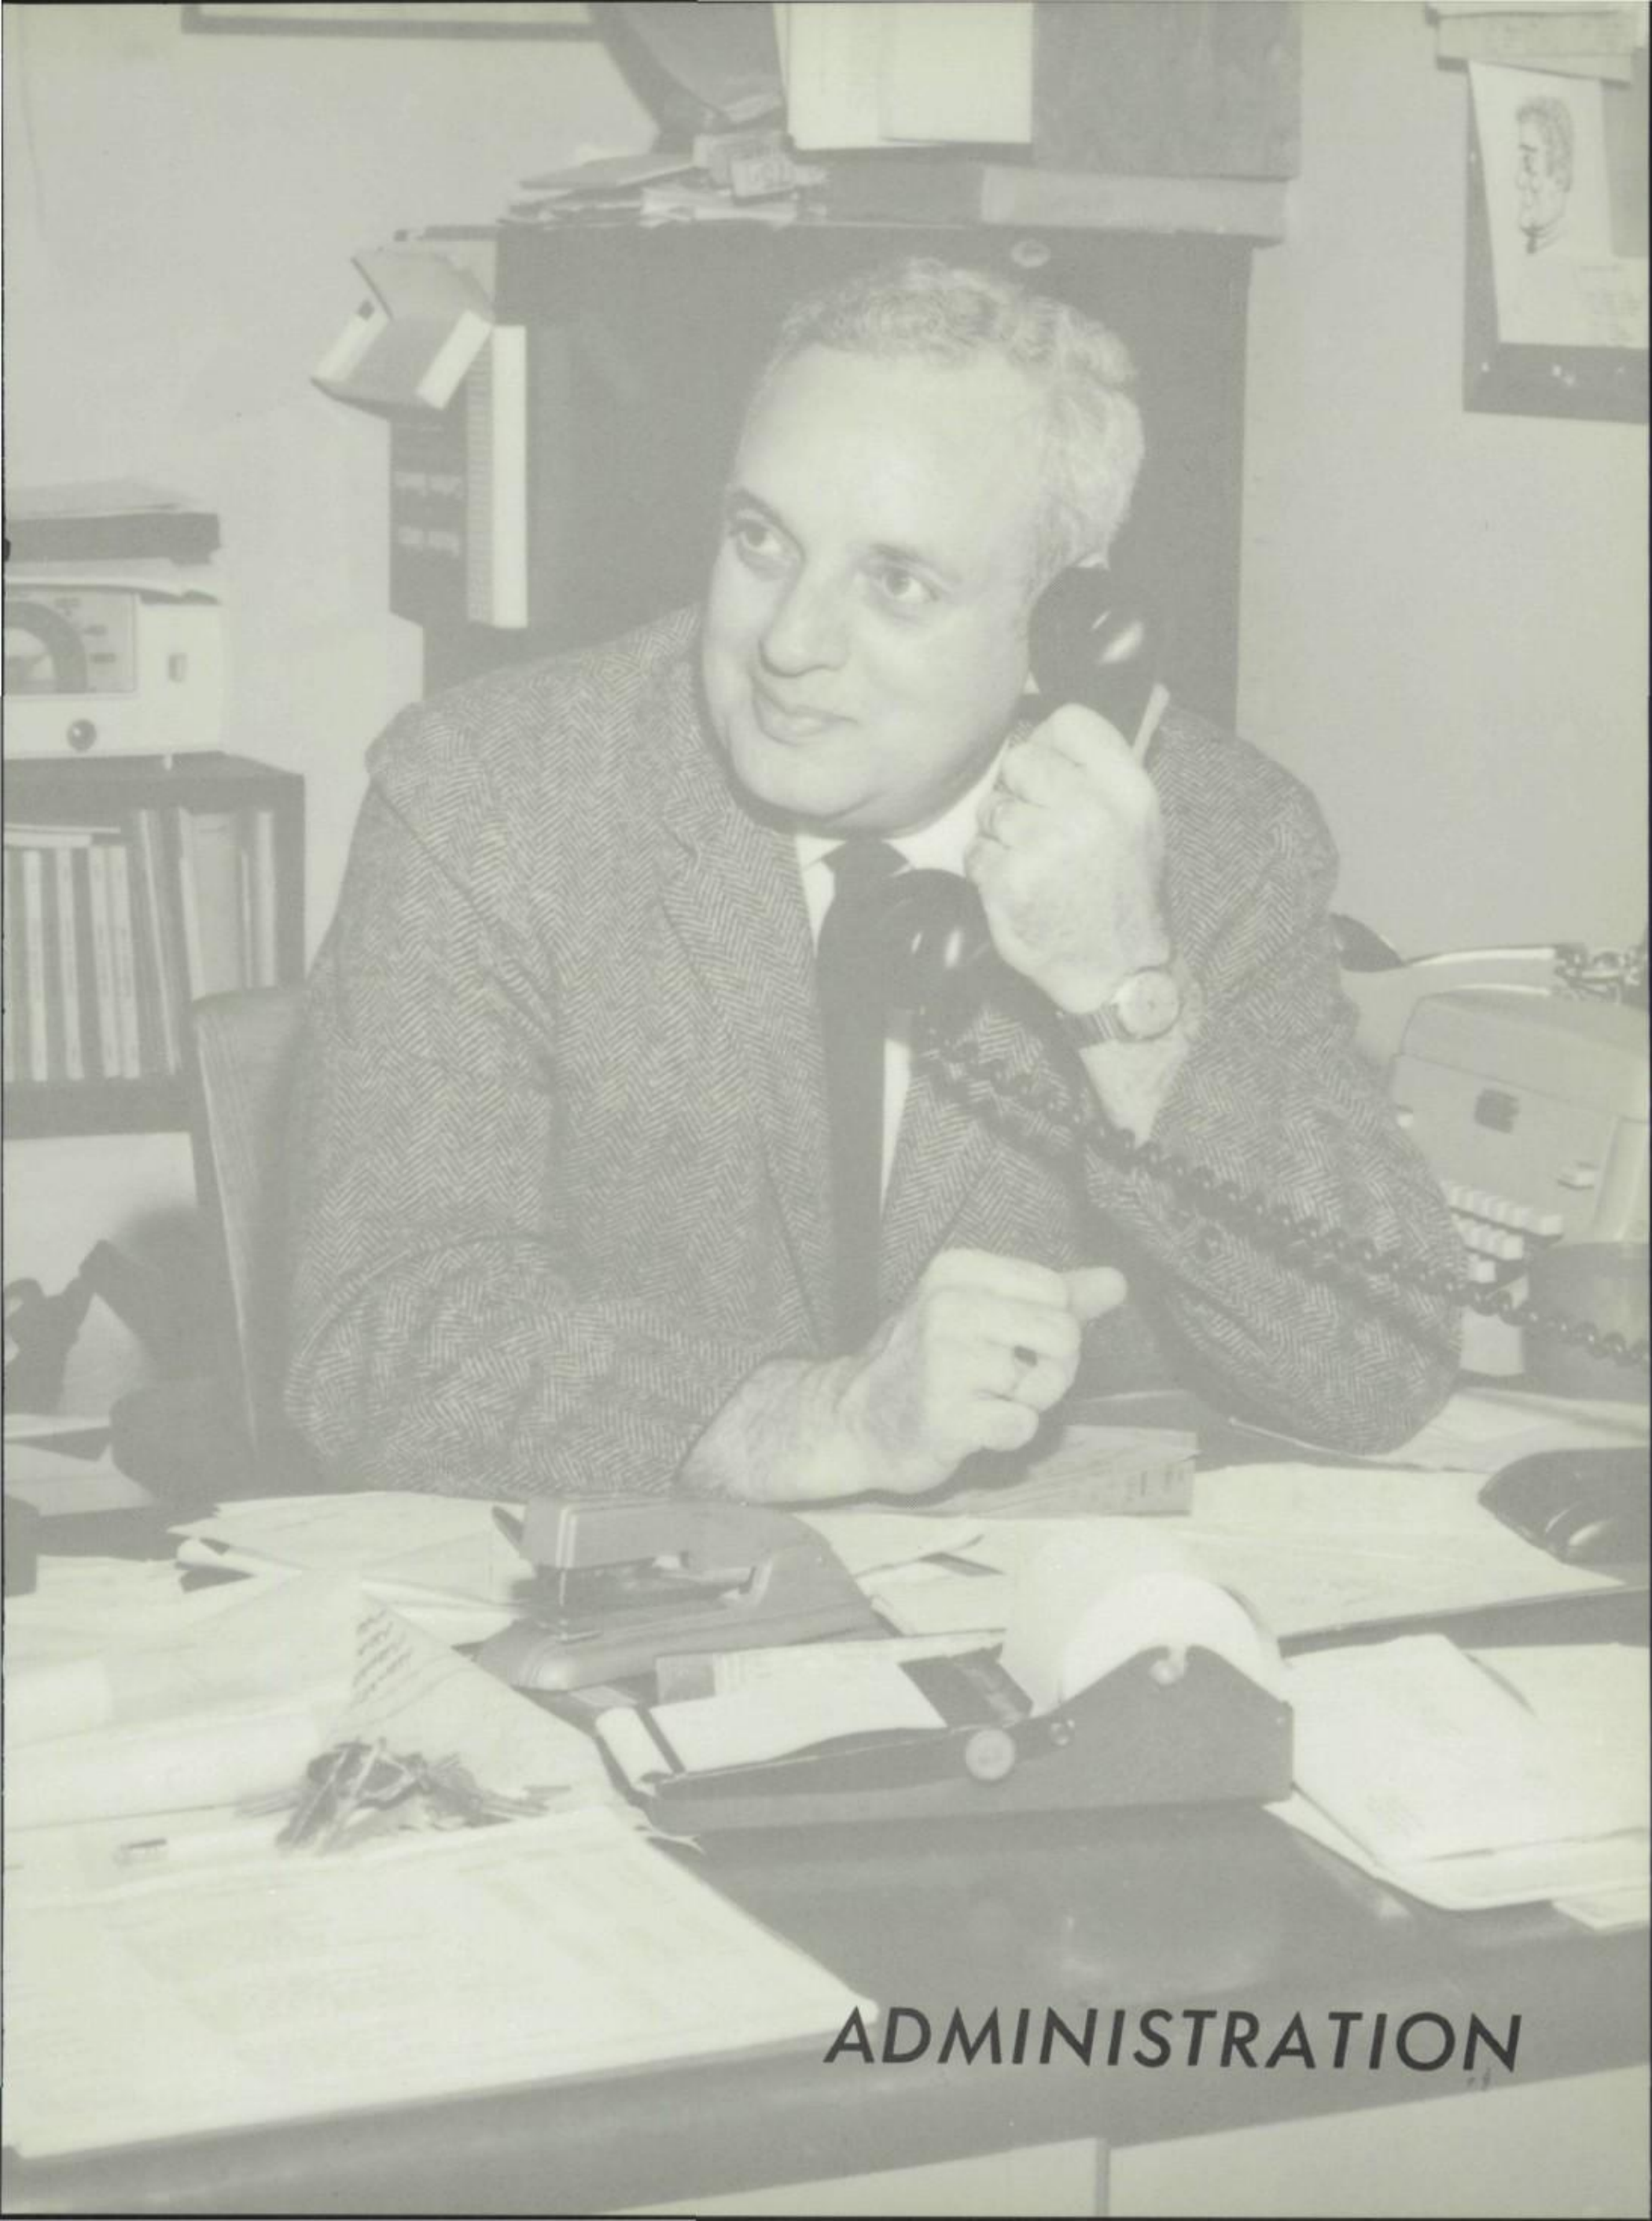

BUT BY THE PAST.

The yearbook staff would like to dedicate this last issue of the Spicennial to all who have graduated from this school. May the many cherished memories not be forgotten after doors are closed. We also wish to dedicate this annual to our principal, Mr. Robert Mathes, who has served this school and the Spiceland community faithfully for the past nineteen years. Best of luck to both Mr. Mathes and to all alumni.

Spicennial Staff of 1969

ADMINISTRATION

SOUTH HENRY SCHOOL BOARD

The South Henry School Board is composed of seven elected members. Mr. James Kellam is attorney for the corporation. The board members are: President, Sam Goldman; Vice-President, Theodore Applegate; Secretary, Albert Bennett. Members: Robert Hendrick, Robert Bitler, David McFarland, and Lewis Rutherford.

MR. CHARLES L. MORRIS
SUPERINTENDENT

MISS LEILANI BATSON

Secretary to Mr. Morris
Treasurer to the Board

MR. MATHES PRINCIPAL

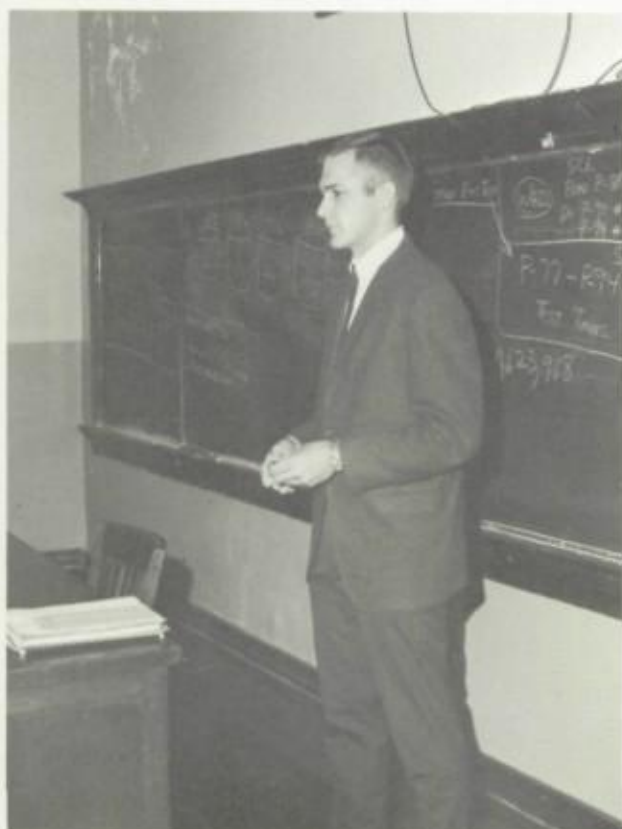

Keeping watch over the students is quite a task, but Mr. Mathes does an excellent job. A student can always turn to Mr. Mathes for helpful advice.

MRS. STEELE SECRETARY

Mrs. Steele is the bookkeeper of the school, besides being the secretary to Mr. Mathes. She is kept busy with helping the classes to keep their money in order and by serving the students in countless other ways.

The veteran Titan baseball team successfully began the athletic career of Tri High School by defeating Morristown. This started a winning tradition which will always be continued. The Titans were coached by Bill Bergmann and led in hitting by Steve Meyerholtz, Don Pyle and Steve Caudill. Perhaps the highlight of the season was defeating New Castle in a doubleheader. Tri High competed in the Big Blue River Conference and finished the season with an overall record of ten wins and twelve losses.

TRI HIGH TITANS

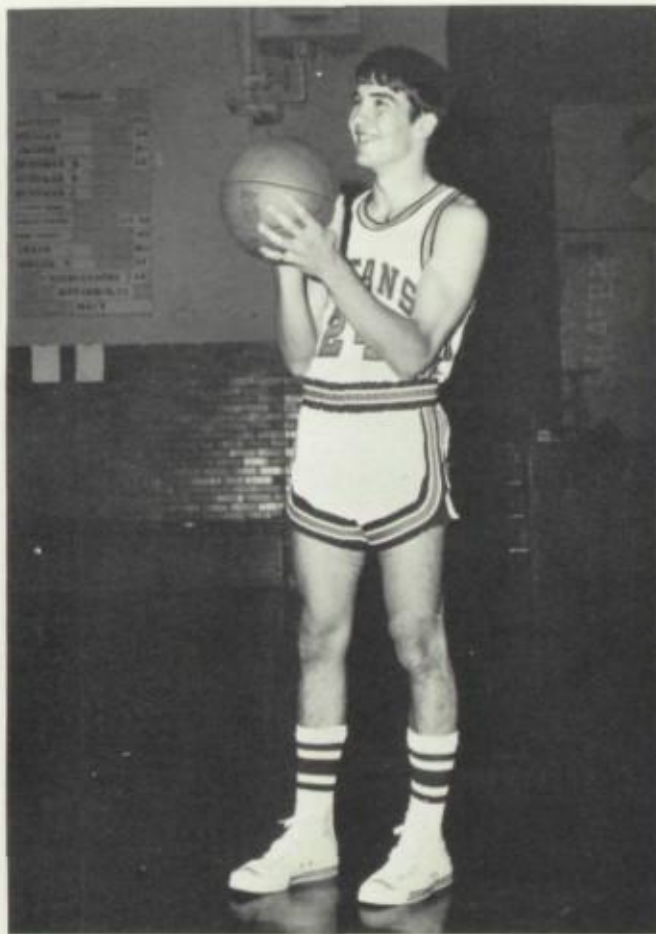

Coach Bob Crowe and his Titans were very successful in their first year of competition. Although the Titans started the season slowly, they became an outstanding ball club as the season progressed. They developed teamwork and a true desire to be victorious. The regular season was finished with a record of 13 wins and 7 loses. A few highlights of the season were winning the New Palestine Tournament and the Big Blue River Conference.

The Titan cross-country team had an outstanding season. It began by placing second in the Indianapolis, Pike, Hokum Karum from a field of ten teams. Coach Bergmann's team was led by the exceptional Ed Miller who was followed closely by Steve Bridges. Ed won the conference meet, placed second in the sectional, fourth in the regional, and seventeenth in the state. Tri High received its first trophy by winning the Whitewater Valley Invitational. The team placed second in the conference and sixth in the sectional.

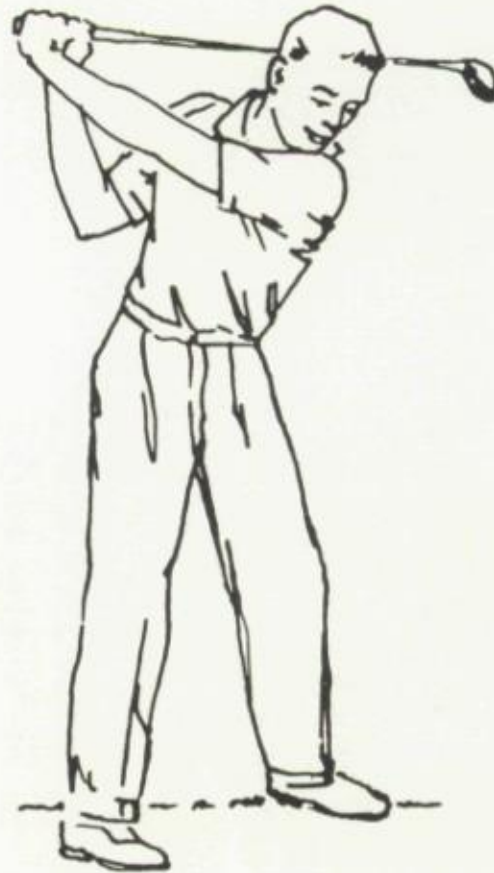

TRACK

We are anticipating an outstanding season for the first Tri High Track and Field team. The Titans will be coached by Mr. Schwartzkopf. He will have many good runners with which to work. It was impossible to print a picture of the track and golf teams because the teams are not yet organized. We wish both teams the best of luck this spring.

GOLF

Our golf team will be coached by Mr. Pattillo. The team will probably be led by Joe Nugen with many other meritable golfers to form a well-balanced team. We are sure the Titan golfers will have a very successful season.

SPICELAND ACADEMY

The first school of any type was held in Isaac Hodson's log barn during the winter of 1826. Although he was past thirty years of age, he was not married, a point which is the only recommendation mentioned in the account of his choice as a teacher. The fact that he would teach and that he could furnish his own schoolhouse was probably all that was necessary. The first real schoolhouse was built on land given by Samuel Griffin in 1827. Whatever the date, this was the beginning of the school that was to become Spiceland Academy and Normal School.

The Academy was a Friends school and was under the direct supervision of the Spiceland Friends Meeting. In 1845 the Indiana Yearly Meeting decided to make a more careful supervision of the church schools. One of their first suggestions was the adaption of uniform school books. New courses were added and the Bible was used as a text book.

In 1851 sixty-two students attended with forty-seven registered as Friends. Through the next few years it was just a case of "carrying on." Finances ran short and the length of term had to be shortened in order to meet the bills. However, the school continued, not exactly prosperously, but never failing. Attendance was not large, ranging from thirty to eighty, and the teachers changed often.

Increasing attendance soon brought up the housing problems. A committee of Friends was appointed to consider the matter. Their report said they were united in the belief that a brick building of the size to accommodate one hundred fifty in number with room enough not to injure their health would be very desirable and necessary to our settlement if

it is within our means. The estimated cost was \$2,500. Two months later the committee reported that \$1,420 had been subscribed, enough for a two-story frame building 32 feet wide and 44 feet long. Just two years later the building was completed. That was in 1861.

In the tenth month of 1896, it was suggested by Clarkson Davis, one of the most prominent of the schools instructors that the school be incorporated into an Academy. Finally, in 1870 after much legal delay the school was incorporated into the Spiceland Academy. With this formal incorporation the Academy was firmly launched on the greatest part of its career, serving as a "select school", high school, college and business preparatory, teacher-training institution, and as a moral and educational power in the community.

A review of the courses offered as high school work makes one wonder if it was not a college rather than a high school. Some of the courses offered through the years under the plans listed above included the following: Algebra, rhetoric, physical geography, philosophy, botany, chemistry, trigonometry, comparative geography, analytical geometry, meteorology, astronomy, geology, calculus, logic, domestic science, Latin, history, Greek, pedagogics, mechanics, English, English Literature, music, Bible study, and Psychology.

By the year 1912 the need for a new building became imperative; therefore, the old building was torn down and a modern brick building was built (the present high school building). The added space made possible the installment of new equipment, and again the Academy took new life.

Until this time the expenses of the school had been met by the tuition paid by the students, by an endowment fund that had been established by members of the Friends Church, and with other people interested in the welfare of the school donating.

The Year 1922 witnessed the metamorphosis of the Academy into a township high school with the purchase of the entire plant by Spiceland Township. It was proposed to convert the Academy into a school for theological training, but an active campaign for additional endowment did not succeed. The day of the Academy was over and Earlham College claimed all supports of the church for higher learning.

This concludes the history of educational institutes in Spiceland with the forming of Tri High School and the completion of the new school building slated for next fall. However, we can not forget the great educational heritage with which we have been endowed. How else can we judge the future except by the past.

Compiling this year's Spicennial was not an easy task. The members of the annual staff had to learn everything from scratch. We all wanted to present the best possible yearbook since this is the last one for Spiceland High School.

Special thanks is owed to Mr. Richard P. Ratcliff for his assistance in helping us present a special alumni section. Mr. Joseph Cooney of Knightstown also contributed much to the success of this book with his excellent photography. And most of all I want to thank Mrs. Sharon Miller for her valuable help in the capacity of advisor. Without her, it would have been impossible to complete the Spicennial.
